

Fleet Onboarding Checklist

RoadLenz Intelligent Mobility | Demo sample content

Week 0 â Discovery

- x Fleet audit: vehicle list, ages, current equipment
- x Use-case mapping: which KPIs the fleet manager cares about
- x Site survey: depot power, network coverage, gate layout
- x Pilot plan: vehicle count, duration, success metrics

Week 1 â Pilot install

- x Hardware staged and tested on bench
- x Pilot vehicles installed and verified on network
- x Dashboard accounts created for the pilot team
- x Alert thresholds agreed with the safety team

Weeks 2â4 â Scale-up

- x Pilot review: KPI readout with the fleet manager
- x Rollout plan: installers, schedule, QA per vehicle
- x Training for on-ground team and dispatch
- x Go-live and handover to support
